

**AMERICAN GENERAL LIFE INSURANCE COMPANY OF DELAWARE**

**INVESTMENT OPTION PERFORMANCE INFORMATION AS OF JUNE 30, 2010**

Gemstone Life is a variable universal life insurance policy issued by American General Life Insurance Company of Delaware. The table below presents average annual returns for each Gemstone Life variable universal life insurance investment portfolio. The returns include reinvestment of dividends and distributions and deductions for management fees and other expenses of the portfolios/funds, including 12b-1 distribution fees where applicable. These returns do not include: (i) mortality and expense risk charges; (ii) all other noninsurance charges and contract fees; and (iii) insurance-related charges, including surrender charges, cost of insurance and monthly expense charges. If these expenses were included, the performance presented below would be significantly lower. Please see the Gemstone Life Variable Universal Life Policy Prospectus for detailed information on the policy fees and charges. A personalized illustration reflecting the effects of the policy fees and expenses utilizing a hypothetical rate of return is available from your registered representative.

2 Effective April 24, 2009, the JPMorgan Series Trust II Bond Portfolio and U.S. Large Cap Core Equity Portfolio were reorganized into the JPMorgan Insurance Trust Core Bond Portfolio and Diversified Equity Portfolio, respectively. The JPMorgan Insurance Trust Diversified Equity Portfolio subsequently changed its name to JPMorgan Insurance Trust U.S. Equity Portfolio. For JPMorgan Insurance Trust Core Bond Portfolio, performance shown prior to April 27, 2009 reflects the performance to the JPMorgan Insurance Trust Core Bond Portfolio. For JPMorgan Insurance Trust U.S. Equity Portfolio, performance shown prior to April 27, 2009 reflects the performance of the JPMorgan Insurance Trust U.S. Equity Portfolio.

Fund returns may have been achieved during favorable market conditions. There can be no assurance that the fund will continue to achieve a substantially similar performance as it previously experienced.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in emerging markets. Risks for emerging markets include, for instance, risks relating to the relatively smaller size and lesser liquidity of these markets, high inflation rates and adverse political developments.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in small and mid-sized companies. Risks for smaller companies include, for instance, business risks, significant stock price fluctuations and illiquidity.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in a sector fund.

Investing in higher-yielding, lower-rated bonds has a greater risk of price fluctuation and loss of principal and income than U.S. government securities, such as U.S. Treasury bonds and bills. Treasuries are guaranteed by the government for repayment of principal and interest if held to maturity. Investors should carefully assess the risk associated with an investment in the fund.

Government securities offer a high degree of safety and are guaranteed as to the timely payment of principal and interest if held to maturity. Fund shares are not insured, and their value and yield will vary with market conditions.

Returns may be higher or lower than the performance stated due to recent stock market volatility.

**Past performance is no guarantee of future results. An investor's units may be worth more or less than the original amount invested when redeemed. An investment in the Fidelity VIP Money Market Portfolio - Initial Class is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in the Fund. International fund unit values and returns will fluctuate with market conditions, currencies and economic and political climates where investments are made.**
